

Important Notice

Liners are not warranted against cosmetic wear of patterns or colour changes.

Swimming pool liner wear, damage, or pattern scuffing and fading, can be caused by automatic pool cleaners, plastic or rubber swim shoes, toys, etc. and as such is not covered under our Liner Warranty.

In the case of automatic pool cleaner's check with the cleaner manufacturer to insure compatibility with your swimming pool, pool shape, accessories and pump and filtration system. Never leave an automatic pool cleaner operating in your pool for longer than recommended by the manufacturer or unattended for extended periods. It can become entrapped in one location and cause excessive wear on the liner. If you notice your cleaner staying longer than a minute or two in any one spot, disconnect and contact your dealer.
